

## 3rd International Conference on Information Systems Security and Privacy – ICISSP 2017

The ICISSP Conference (The 3rd International Conference on Information Systems Security and Privacy) organized by INSTICC (*Institute for Systems and Technologies of Information, Control and Communication*) will take place from 19 to 21 of February 2017 in Porto, Portugal.

The International Conference on Information Systems Security and Privacy aims at creating a meeting point for researchers and practitioners that address security and privacy challenges that concern information systems, especially in organizations, including not only technological issues but also social issues. The conference welcomes papers of either practical or theoretical nature, presenting research or applications addressing all aspects of security and privacy that concerns to organizations and individuals, thus creating new research opportunities.

One of the most important contributions that ICISSP brings about is the creation of a high-level forum in collaboration with the most prestigious internationally recognized experts, including names such as Olivier Camp (MODESTE/ESEO, France) as a Conference Chair. Paolo Mori (Istituto di Informatica e Telematica, Consiglio Nazionale delle Ricerche, Italy) and Steven Furnell (Plymouth University, United Kingdom) as a Program Co-Chairs. ICISSP 2017 will have invited keynote speakers, who are internationally recognized experts in their areas: Elisa Bertino (Purdue University, United States), Nancy Cam-Winget (Cisco Systems, United States) and Bart Preneel (K.U.Leuven ESAT/COSIC, Belgium).

All accepted papers will be published in the conference proceedings, under an ISBN reference, on paper and on CD-ROM support.

SCITEPRESS is a member of CrossRef (<http://www.crossref.org/>) and every paper is given a DOI (Digital Object Identifier).

All papers presented at the conference venue will be available at the SCITEPRESS Digital Library.

The proceedings will be submitted for indexation by Thomson Reuters Conference Proceedings Citation Index (ISI), INSPEC, DBLP, EI (Elsevier Index) and Scopus.

Further information about ICISSP 2017 can be found at the conference website <http://www.icissp.org/>

## About [INSTICC](#)

INSTICC is the Institute for Systems and Technologies of Information, Control and Communication, a scientific, non-profit, association whose main goals are to serve the international scientific community by promoting, developing and disseminating knowledge in the areas of information systems and technologies, control and communications.

To achieve these goals, INSTICC is committed to integrate and support many activities relevant for the international scientific community, including:

- Promotion of the mobility of renowned researchers, usually involved as keynote speakers at INSTICC events, so that they can share their knowledge with conference delegates;
- Providing grants to support the presence of many young researchers from all over the world, especially from regions facing economic difficulties, who wish to attend INSTICC conferences;
- Publication of proceedings, books and journals - some of them in cooperation with distinguished international publishers - widely indexed and made available at appropriate digital libraries;
- Sponsorship of research projects, proposed by universities and R&D institutes, related to INSTICC main interest areas;
- Collaboration with international associations, who may technically co-sponsor INSTICC events, as well as with companies involved in R&D or supporting of the international academic community.

Over the years, these initiatives have brought together a large and very diversified international community spread over more than 141 countries, including more than 500 high profile keynote speakers, over 15600 specialized reviewers and about 46000 authors.
